## Bio Fly-Repel for Dogs

**Puresan Bio Fly Repel – highly effective for keeping flies away you're your dog, without the use of harmful or toxic chemicals or strong fragrances.**

### Application

- **Puresan Bio Fly-Repel for Dogs** – contains specifically selected bacteria to keep flies away from your dog without having to use harmful or toxic chemicals or strong fragrances. Strong fragrances used in some products irritate the upper respiratory tract of susceptible animals.
- **Puresan Bio Fly-Repel for Dogs** – the specially selected bacteria will remain on the dog's fur after application. If the dog's fur gets wet reapply a fine misting again.
- **Puresan Bio Fly-Repel for Dogs** –
  - ❖ Fill a 500ml trigger spray bottle with clean water.
  - ❖ Add 2ml of Puresan Bio Fly-Repel for Dogs to the spray bottle.
  - ❖ Gently shake the bottle to mix the contents.
  - ❖ Turn the spray nozzle to a fine mist and spray a light misting over the dog.
  - ❖ Avoid getting the product into the dog's eyes or mouth.
  - ❖ Repeat the sprayed light misting when required.

Puresan Bio Fly-Repel for Dogs is available in 100ml screw cap bottles
