

PURESAN[®]

Bio PT Block

Puresan Bio Portable Toilet Block. A biological treatment with an environmentally + effect that will safely and biologically remove all odours.

Application

Until now portable toilets have been treated by attempting to sterilize the conservancy tank and masking all smells with a fragrance. **Puresan Bio Portable Toiler (PT) Blocks** will not mask any smells but completely eliminate all odours at source.

- **Puresan Bio PT Blocks** are a unique proprietary block that allows aeration, oxygenation and biological treatment of stagnant, anaerobic and anoxic water like that found in a portable toilet conservancy tank.
- **Puresan Bio PT Blocks** has the ability to enhance all aerobic biological action and have shown dramatic oxidation of Ammonia, Hydrogen sulphide and greatly reduce solids and eliminate odours.
- **Puresan Bio PT Blocks** have a unique dual stage action:
 - 1 - Fast release of the organic water colourant and proprietary product that will eliminate all odours and break down organic waste
 - 2 - Slow release oxygen and biodegradable fragrance for optimum bacterial action and ammonia binding as well as deodorizing.
- **Puresan Bio PT Blocks:** -
 - Mini** will treat a portable toilet for up to 5 days
 - Maxi** will treat a portable toilet for up to 10 days

Puresan Bio PT Blocks Mini available in containers of 600 units

Puresan Bio PT Blocks Maxi available in containers of 500 units
