

PURESAN[®]

Bio Stable and Kennel Cleaner & Deodoriser

Puresan Bio Stable and Kennel Cleaner & Deodoriser – Malodours that attract vectors and insects are eliminated and fly activity is greatly reduced.

Application

- **Puresan Bio Stable and Kennel Cleaner & Deodoriser** – contains specifically selected bacteria to perform the cleaning and odour neutralization in various applications, without the pungent odour of disinfectant cleaners and without the harmful effects of toxic chemicals. Strong fragrances used in some cleaning products and disinfectants irritate the upper respiratory tract of susceptible animals.
- **Puresan Bio Stable and Kennel Cleaner & Deodoriser** - also purifies ambient air and removes odours from drains and pipes. The specially selected bacteria will linger on the surfaces and continue to biodegrade organic matter such as urine and faeces to eliminate malodours.
- **Puresan Bio Stable and Kennel Cleaner & Deodoriser** –
Hard Surface Periodic Cleaning: -
 - ❖ Apply with a foam gun on surface to be cleaned or on malodourous surfaces.
 - ❖ Apply mechanical action to surface to remove build-up.
 - ❖ Rinse area or floor if necessary*Daily Stable Bedding Treatment (Malodour Elimination):-*
 - ❖ Remove droppings.
 - ❖ Apply product in a fine mist to the top layer of stable bedding.

Puresan Bio Stable and Kennel Cleaner & Deodoriser is available in 100ml, 1L, 5L and 20L containers
