## INNOVATIVE BIOLOGICAL LIQUIDS FOR ALL YOUR CLEANING NEEDS

Puresan Bio Stable and Kennel Cleaner and Deodoriser contains specially selected bacteria to perform the cleaning and odour neutralisation in various applications. Used in the cleaning of stables and kennels without the pungent odour of disinfectant cleaners. The specially selected bacterial strains do the cleaning and deodorising without the harmful effects of toxic chemicals. Strong fragrances used in cleaning products and disinfectants irritate the upper respiratory tract of susceptible animals. The specially selected bacteria will linger on the surfaces and continue to biodegrade organic matter such as urine and Faeces to eliminate malodours. As there is no malodour present, flies and other vectors are unlikely to enter and thus will not cause wound infections in lesions on the animals.

### PURESAN BIO STABLE AND KENNEL CLEANER AND DEODORISER UNIQUE BENEFITS

-  A better option than using highly alkaline cleaning products, disinfectants or solvents
-  A unique proprietary concentrated liquid that allows for the specially selected bacteria to remove dirt and neutralise malodours
-  Reduces the risk of upper respiratory tract irritation and infected lesions, especially in horses
-  Reduces malodours in animal shelters whilst gentle on the respiratory tract of sensitive animal noses
-  The high concentration product reduces transport cost
-  Reduces plastic as product is highly concentrated
-  Saves storage space – go from a cleaning supply store room to a cupboard for storage
-  A few milliliters goes a long way – see dosage chart
-  Reduces malodours which attract insects like flies that could spread disease
-  Continuous action of the biological elimination of organic matter and unpleasant odours.
-  Very effective in removing malodours in drains and pipes when the cleaning solution is washed down floor drains

### PURESAN BIO STABLE AND KENNEL CLEANER AND DEODORISER IS AS ENVIRONMENTALLY POSITIVE AS IT GETS

-  Environmentally positive making use of nature's cleaners (soil bacteria) put to work to rectify man-made problems
-  Contains no VOCs – no solvents that take your breath away
-  Safe for users – gentle on surfaces - simple to use – environmentally positive + 

### PURESAN BIO STABLE AND KENNEL CLEANER AND DEODORISER USAGE INSTRUCTIONS - GUIDELINES

#### Periodic Cleaning:

1. Apply with a foam gun on surface to be cleaned or on malodorous surfaces
2. Apply mechanical action on surfaces.
3. Rinse area or floor if necessary.

#### Daily stable / Kennel bedding:

1. Remove any animal droppings.
2. Finely mist the bedding, without getting it too wet.

### DOSAGE GUIDELINES

Heavy duty periodic cleaning		1:100	10ml/1L Water
Daily stable / kennel bedding		1:256	4ml/L Water

### PACK SIZES

1L; 5L and 20L
