

# PURESAN<sup>®</sup>

## Pure Fresh

**Puresan Pure Fresh – When preparing ready-to-use salads, extending the shelf-life of fruit and vegetables and extending the shelf-life of pre-prepared vegetables.**

### Application

- **Puresan Pure Fresh** - unique formulation of non-toxic mineral compounds for dipping/rinsing or washing harvested produce to prevent spoilage after packaging.
- **Puresan Pure Fresh** - for use when preparing ready-to-use salads for retail as well as in the catering and sandwich making sectors.
- **Puresan Pure Fresh** - extends the shelf-life of fruit and vegetables.
- **Puresan Pure Fresh** – Fruit/Vegetable dipping/rinsing or washing, use 100ml per 500 litres of known water source water.
- **Puresan Pure Fresh** – safe alternative to chlorine – salt free, no taint, no harmful additives.
- **Puresan Pure Fresh** – kills all food poisoning and water-borne bacteria.
- **Puresan Pure Fresh** – always mix a fresh solution:
  - Every 24 hours
  - After each shift
  - When rinsing/dipping/washing water is visibly contaminated

**Puresan Pure Fresh is available in 100ml twist cap bottles**
