# PURE TANK

**Puresan Water Tank Purifier.** A water tank additive that can be dosed directly into water tanks to provide clean water for drinking, cooking and cleaning. Puresan Water Tank Purifier is available in 100ml twist cap bottles.

### Dosage:

- Add 100ml to 1000L tank of borehole water.
- Add 100ml to a 1500L tank of rain water.

## Application

- Water treatment for 1000L to 4000L water tanks (Rainwater to dirty river or borehole water).
- Kills 99.99% of known waterborne bacteria, viruses and fungi.
- Meets and exceeds WHO and US EPA standards for drinking water.
- Meets SANS 241 drinking water specs in dosed form.
- Assists in keeping all pipes and water distribution equipment clean from bio film, hard water scale build-up, etc.
- Consumers have reported therapeutic benefits on using the product.
- Reduced the symptoms of gastro and related illnesses.
- Listed in various EU countries as approved for adding to water for drinking.
